Thank You Note

Respected Mr. S. Soma Sekhar Naidu Garu,

On behalf of the **Department of Civil Engineering, MVGR College of Engineering (Autonomous)**, I extend our heartfelt gratitude to **Mr. S. Soma Sekhar Naidu Garu**, Founder and Managing Director of **Desire2Design Engineers**, for delivering an exceptional expert talk on **"Science Behind the Structural Failures: From Theory to Construction Practice."**

Sir, we sincerely appreciate your gracious acceptance of our invitation and the valuable time you have spared from your busy professional schedule to interact with our students and faculty. Your presence among us has been both an honour and a source of immense inspiration.

The session was far more than a technical lecture. It was an enlightening journey into the realities of structural engineering, where you beautifully bridged the gap between classroom concepts and practical engineering applications. Your insightful explanation of the causes of structural failures, supported by real-world case studies, field experiences, and engineering practices, enabled our students to understand that successful engineering extends beyond calculations and design—it requires responsibility, attention to detail, professional ethics, and a commitment to quality throughout planning, design, construction, and maintenance.

The examples you shared from your extensive professional experience brought life to engineering concepts that are often confined to textbooks. Your practical insights into design philosophy, construction challenges, quality control, and failure analysis have undoubtedly broadened the perspectives of our students and encouraged them to think critically as future civil engineers.

What made the session truly remarkable was the enthusiasm and clarity with which you presented every concept. Your ability to simplify complex engineering principles, while maintaining their technical depth, kept the audience engaged throughout the session.

In today's rapidly evolving construction industry, such interactions with accomplished professionals are invaluable. They help students appreciate the expectations of the profession, understand current industry practices, and prepare themselves to become competent, ethical, and

innovative engineers. We are confident that the knowledge and inspiration gained from the session will remain with our students throughout their academic and professional journeys.

We are also thankful for your willingness to share your rich experience so generously. Your dedication to nurturing the next generation of engineers demonstrates your commitment to the advancement of civil engineering education and the profession as a whole.

We express our sincere gratitude for your invaluable contribution to the academic enrichment of our department. We hope this interaction marks the beginning of a long and meaningful association between **Desire2Design Engineers** and the **Department of Civil Engineering, MVGR College of Engineering (Autonomous)**. We look forward to welcoming you again for more expert sessions, technical workshops, and collaborative initiatives in the future.

Thank you, Sir

Mr. Rajendra Prasad Singh
